Repertoire:

1 RASO KURUM

2/ I WAS YOU BACK

Feedback:

1/ This had a lovely easy style - a really tight ensemble sound with a feltness of touch that was very enjoyable. The bass instrument found a buoyant, easy-to-2-feel that was fundamental to this. You took great care to provide those lighter moments (eg the drop in dynamic near the end).

2/ A good contrast - you found a brighter, harder sound. Excellent sounding trombone solo and good lead playing - You could probably afford to blow it a bit more and really go for the big moments.

A really good band - with a real collective sense of ensemble. James

Suggestions for development:

In the Section number, try and hit a bit more bite & clarity to the opening whistle ~~with~~ ^{of} the - particularly 'Bill'. You could experiment with different tempi to achieve this.
